

Horrors & Hormones

Date: 22nd May 2009
Hilton Hotel, Blackpool.

A one day conference considering the causes, impacts and management strategies for responding to Challenging Behaviour and emerging sexuality in young adults with Autistic Spectrum Conditions

The day is in direct response to last year's conference feedback and seeks to explore the physical, mental and emotional impact of challenging behaviour and emerging sexuality, giving a rare opportunity to consider the elements taken together and to reflect on how each affects the other.

Various perspectives from the theoretical to the practical will reveal insights for professionals, practitioners and parents, with interests in helping those on the autistic spectrum grow into adulthood with less trauma and greater success.

The main speakers have international reputations in the field of autism:

Speakers confirmed already are:-

John Clements *Author and proponent of the STAR model*

John Mortlock *the Socio Sexual Development of people with Autism*

Details and bookable places are available by request to:

MyTownTiggers 01253 319210
